

SixE® LEARN + SWIVEL

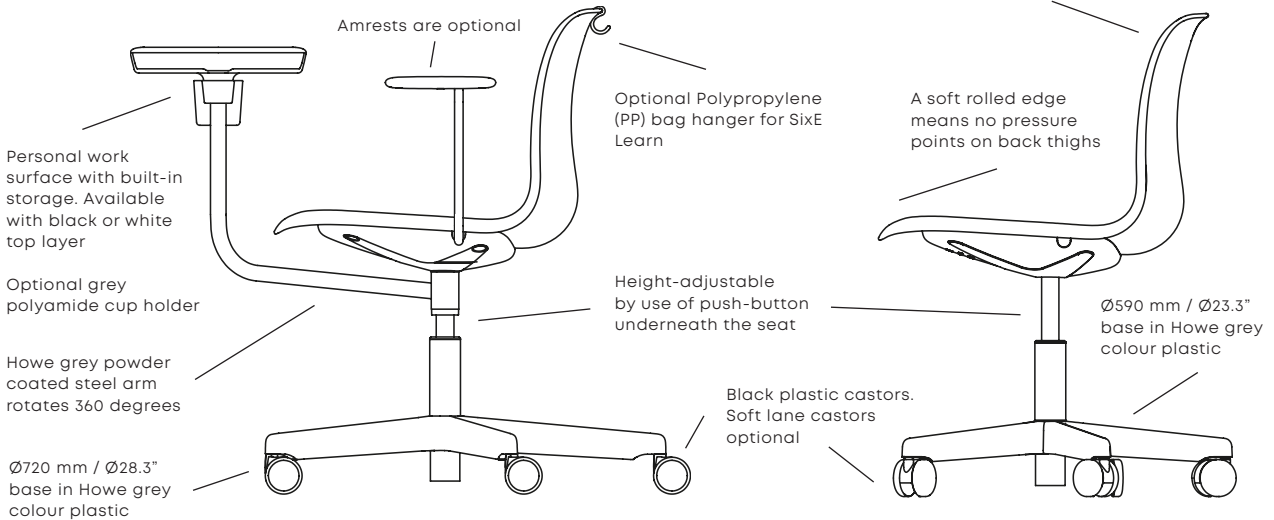

The shell material is 100% recyclable Polypropylene (PP), with options for 100% recycled in Howe grey colour

Also available as a seat and fully upholstered

A carefully tuned back form delivers superb comfort and support for the lumbar region

A unique semi gloss graphic texture on the back

A soft rolled edge means no pressure points on back thighs

SixE is designed to be the most efficient, sturdy, and long-lasting solution to the ubiquitous stacking shell chair. Designed by the British design duo, Pearson Lloyd and designed with a high focus on comfort and functionality SixE offers the crucial support and ergonomics for an ideal chair experience. SixE has a modern yet modest design with an inviting aesthetics that integrates with and enhances architecture.

The SixE swivel is an ideal solution for any learning environment. It moves, turns, and elevates your experience to the next level. With a range of carefully considered features including a personal work surface with storage, SixE Learn creates space for limitless active engagement.

ERGONOMIC, EFFICIENT, ELEGANT, ENVIRONMENTAL, ECONOMIC AND EASE OF HANDLING: THESE SIX "E" WORDS SUM UP THE SIXE CHAIR.
